FREE FRONTIER SEMINAR
High-Precision GNSS Primer
ANCHORAGE, AK
Friday, November 17, 2017

*This **FREE** seminar is for anyone interested in using survey-grade GNSS equipment to collect geospatial data!*

The seminar will include:

We will cover the basics of carrier-phase measurements and real-time corrections, as well as geodesy and coordinate systems. Then we will discuss GNSS system components and basic field collection procedures, including static control. We will also offer a look at Trimble Business Center's GIS Module, which can connect directly to an Esri database, seamlessly translate schema into feature code libraries, and send high-precision field data back to the database.

You've got Geospatial questions? We have the answers!

SESSION DETAILS:

LOCATION: Frontier Precision

ADDRESS: 5701 Silverado Way, Unit J | Anchorage, AK 99518

TIME: 12:30 p.m. – 4:30 p.m.
