## FRONTIER TECHNOLOGY WEBINAR Best Practices for Accuracy with Trimble Total Stations & Targets Monday, August 28, 2017

### Join us for this **FREE** Frontier Technology Webinar!

In this webinar we will discuss the differences between the Trimble Total Station targets, and best practices for using them in the field. We will discuss proper target setup in Trimble Access, with settings like Target ID, Tracking Mode, etc.

We will also discuss proper procedures and care for your targets, and when to use the different types of targets available to you. This session will be informative for anyone collecting data or staking with Trimble Total Stations and looking to get the most precision out of their Trimble Robots.

#### SESSION DETAILS:

**DATE:** Monday, August 28, 2017

**TIME:** 11:00 a.m. – 12:00 p.m. (CDT) | 60 MINUTES

**COST:** **FREE**

*Join us, and learn best practices for using Trimble Total Stations & Targets in the field!*

**Register TODAY!**
