

# WYOMING MINING TEXPO

## CALLING ALL MINING PROFESSIONALS!

Join Frontier Precision for a one-day workshop on Mining Solutions including Terrestrial, and Airborne Lidar, Point Cloud Processing plus a great deal more! The workshop will have several live demonstrations of cutting-edge workflows including the Trimble X9 Lidar Scanner, the SX12 Total Station, and Unmanned Drones Flying Yellowscan Airborne Lidar Data Capture systems.

We will also demonstrate Damage Prevention including RD underground line locating systems and GPR. The data will be brought into ESRI Mining Solutions plus and several other software platforms to help the mining professional evaluate, filter, and manage different datasets to make better informed decisions on day-to-day workflows. Join us to learn how to get work done faster and safer than ever before. *Lunch IS provided.*

**THURSDAY, MAY 8, 2025 | 9:00 AM – 3:00 PM**

**WRIGHT HOTEL | WRIGHT, WY | 300 REATA DR, 82732**
