

FIELD-TO-FINISH

TRIMBLE BUSINESS CENTER WORKSHOP

TOPICS WILL INCLUDE:

Starting a New Project – Best practices for setting up job settings, coordinate systems, units, and processing options

Feature Code Libraries – Building, editing, and applying code libraries for clean, automated drafting

Project Templates – Creating reusable templates to speed up workflows and ensure consistency across crews

Trimble Connect Integration – Using cloud workflows for file exchange, collaboration, and version control

Quality of Data – Reviewing GNSS quality indicators, baselines, trajectories, and scan stats to ensure clean deliverables

Extraction Tools – Automated and semi-automated tools for creating linework, surfaces, and deliverables from field data

Cost \$25 per person.

December 16, 2025 | 8:00 AM-12:00 PM
1324 N. Walnut St. | Spokane WA 99201
