

FRONTIER PRECISION LIVE WORKSHOP

INTRODUCTION TO STOCKPILE WORKFLOWS IN TBC

Join Frontier Precision for a 1-hour introduction to the stockpile workflow in Trimble Business Center. Designed for new users, this webinar will demonstrate how to import data, create surfaces, calculate stockpile volumes, and generate professional deliverables using real-world workflows and best practices.

Topics will include:

- Importing Point Cloud data into TBC
- Best practices for efficient workflows
- Reviewing and validating results
- Creating reports and deliverables
- Creating stockpile surfaces
- Defining stockpile boundaries
- Automatic Stockpile extraction
- Calculating stockpile volumes
