

FRONTIER PRECISION LIVE WORKSHOP

Introduction to Trimble's MX90 Mobile Mapping Scanner & TBC Mobile Mapping Workflows.

Sept. 3, 2026 | 2PM - 3PM [MT] | Cost \$50 per person

Join Frontier Precision for a 90-minute webinar on an Introduction to Trimble's flagship mobile scanner, the MX90. In this webinar we'll go over the specs of the MX90, the setup process, Trimble Mobile Imaging software, scan data collection and data transfer into Trimble Business Center. We'll be using real world data to showcase the ease of use and provide a workflow for users to see first-hand.

Topics will include:

- MX90 best practices
- MX90 specifications
- Full system overview of hardware and software
- Creating, starting and ending a mobile scan mission
- Data transfer workflows
- Utilizing the Trimble Business Center Mobile Mapping module
