

CONNECTED CONSTRUCTION LAYOUT

TRIMBLE FIELDLINK & TRIMBLE CONNECT

September 9, 2026 | 1:30 PM - 3:30 PM

Stop chasing files and start syncing real-time data. Join us for an intensive, hands-on workshop covering how Trimble Connect integrates directly with Trimble FieldLink to eliminate rework, automate data flow, and keep your crews aligned.

Topics will include:

- Introduction to Trimble Connect
- Trimble FieldLink and Connect workflows
 - Syncing information from the field to the office
 - QA/QC field information with Connect
 - Streamline model prep
- Create a connected office-to-field workflow
- Publish models using Trimble Connect
- Access cloud-hosted projects in FieldLink and Connect web
- Capture verification and as-built information
- Trimble Connect and point cloud data

This webinar will be a live stream of the in-person workshop happening at the same time at the Frontier Precision Hawaii Office, located at:

2144 Auiki St, Honolulu, HI 96819
