Fly the skies and reach new heights – with the latest drone aircraft and sensor technology. Frontier Precision offers industry leading products and software from DJI, Parrot, Inspired Flight, Freefly, Ascent, PIX4D, and many others – to make sure you get the right product for the right UAS application.

Frontier Precision also carries a variety of underwater ROVs and robots from Deep Trekker – designed with the operator in mind, making inspections and surveys in the harshest environments easier than ever before.
