

Join us at 49th State Brewing Co. in Anchorage, Alaska to learn about the newest products and technology from the experts at Frontier Precision! The Tech Session topics will include the new Trimble SX12 with Wi-Fi HaLow™ and Trimble Access.

**Trimble SX12 with Wi-Fi HaLow:**

- Much higher throughput than LRR, but much longer range than standard Wi-Fi
- Single-link communication solution – no more switching between Wi-Fi and LRR

**Trimble Access:**

- New tools to manage and analyze large data sets
- Use Trimble Maps to access high-resolution aerial imagery, terrain data, and other mapping information directly within Trimble Access
- Link design files from Trimble Connect or USB files to jobs in Trimble Access directly from the Layer Manager

**WHEN:** May 11, 2023 | 2:30pm to 3:30pm

**WHERE:** 49th State Brewing Co.  
Top Floor, Private Dining Room  
717 West 3rd Avenue, Anchorage, AK 99501
