

HOKE SAREX 2024

FRONTIER PRECISION
UNMANNED

NC STATE UNIVERSITY

APRIL 5TH – 7TH, 2024

Raeford, NC

Hoke SAREX 2024 will simulate search and rescue operations in a wilderness environment. Hoke Search and Rescue Exercises will begin on Friday, April 5th and will conclude on Sunday, April 7th. The SAREX will be divided into four operational periods and will be managed using the National Incident Management System. Ground SAR, K9 teams, UAS Teams, Boat Teams, and Incident Management Teams are encouraged to participate. The scenarios will involve combining knowledge, skills, and abilities to overcome challenges faced in real-world searches.

Frontier Unmanned will be on-hand as technical subject experts for drones in the public safety realm. Hosting scenario based training, technical subject matter break outs, and demoing/training new equipment.
