## Convert TGO Project command - End of Life Announcement

The *Convert TGO Project* command used to migrate data from TGO to TBC will be sunset effective September 1st, 2020.

### Summary

As you may know, TGO, also known as *Trimble Geomatics Office*, had been around since the early 2000's until Trimble discontinued TGO in December of 2010. Since that time, TBC has continued to offer the conversion command so that users can properly migrate their data from TGO to TBC for ten years now.

This command will no longer be available in future releases of Business Center above v5.30. All versions of TBC v5.30 and lower will support this command until September 1st, 2020.

If you're still using TGO, or have legacy projects that have not been transferred over to TBC, you must do so before September 1st, 2020.

For more information, please contact your local Trimble Distribution Partner.
