

# SKYDIO & FRONTIER PRECISION UNMANNED INDIANAPOLIS ROADSHOW

## MONDAY, MARCH 18

10 AM-1 PM [EDT Time Zone]

Experience Skydio X10 live. See firsthand how easy it is to fly. And how having the best sensors in a drone this small, piloted by the most advanced AI in the sky will help you capture the best data possible. Never flown a drone before? Don't worry. Our autonomous technology makes Skydio X10 super easy to fly.

Come fly with us and learn why:

- Trusted by every branch of the U.S. DOD, all FVEY countries and across NATO.
- More than 320 law enforcement offices rely on Skydio drones to keep communities safer in 47 US states and across Canada.

You'll also experience Skydio Dock, Remote Ops, and Remote Flight Deck. See firsthand how you can use these technologies to automate perimeter patrol, streamline inspection and awareness in remote environments, and deploy a drone as a first response.

Enjoy complimentary refreshments while having fun flying!  
Lunch *IS* included.

### LOCATION

Grand Park Sports Campus  
19000 Grand Park Blvd, Suite C  
Westfield, IN 46074
